## Summary - Full Stack Developer

---

Passionate full-stack developer seeking opportunities to leverage expertise in front-end and back-end technologies to build scalable web applications.

Skilled in developing real-world projects using modern technologies including React.js, Next.js, Node.js, MongoDB, and more.

## Education

---

**Bihar Institute of Law, Patliputra University**

*Bachelor of Laws (BALLB.)*

**2019 – 2024**

*Patna, Bihar*

## Technical Skills

---

**Web Technologies:** HTML, CSS, JavaScript

**Frontend Frameworks & Styling:** React.js, Next.js, Tailwind CSS, Shadcn, Framer Motion

**Backend & APIs:** Node.js, Express.js, REST APIs, JWT Authentication

**Database:** MongoDB

**Tools:** Git

## Projects

---

**Blog Website with Admin Panel:** Next.js, MongoDB, Tailwind, JWT

[Source Code](#) — [Live Demo](#)

- \* Built a full-featured blog platform with an **admin panel**, **SEO optimization** (sitemap.xml), and **JWT-based authentication**.
- \* Implemented **post creation/editing**, search, and dynamic routing with smooth UI animations using **Framer Motion**.

**E-commerce Platform with Razorpay:** Next.js, MongoDB, Shadcn, JWT

[Source Code](#) — [Live Demo](#)

- \* Developed a complete **e-commerce platform** with **product/order management**, secure payments via **Razorpay**, and an **admin dashboard**.
- \* Utilized **Shadcn** and **Framer Motion** for animated UI and responsive layouts across both user and admin interfaces.

**Real-time Chat App:** Next.js, Socket.io, Node.js

[Source Code](#) — [Live Demo](#)

- \* Implemented a real-time **chat application** using **Socket.io** with instant messaging, typing indicators, and user presence tracking.
- \* Created a responsive UI with **Tailwind CSS** and secured all routes via **JWT authentication**.

**Donation Website:** Next.js, Razorpay, MongoDB, Admin Panel, Tailwind

[Source Code](#) — [Live Demo](#)

- \* Developed a full-featured **donation platform** with dynamic donor form, payment gateway, and admin dashboard.
- \* Integrated **Razorpay** for secure online payments and **Resend API** to send thank-you emails automatically.
- \* Built a responsive UI using **Tailwind CSS**, and used MongoDB to store donor data efficiently.
- \* Enabled admin panel to view, search, and manage donations with pagination and filtering.

## Extracurricular Activities

---

- Built and published several **NPM packages**, contributing reusable components and tools to the JavaScript/React ecosystem.
- Regularly read and wrote **technical blogs** on web development, performance optimization, and best practices.
- Actively engaged in **tech communities and forums** to share knowledge and stay updated with the latest industry trends.
